

## 1. PRODUCT AND COMPANY IDENTIFICATION

### 1.1 Product identifier

Product Name: Rust Remover  
 Product Code: Eurolube Formula 5132  
 General Description: Acid-based rust and scale remover

### 1.2 Relevant Identified uses of the substance or mixture and uses advised against

Identified uses: to remove corrosion contaminants on metal parts

### 1.3 Details of the supplier of the safety data sheet

Name of Supplier: United Resources Marketing Services Pte Ltd  
 Address of Supplier: 20 Bukit Batok Crescent  
 #05-20 Enterprise Centre  
 Singapore 658080  
 Telephone: +65 6764 3172 (main)  
 Fax: +65 6764 5615  
 Email: [enquiry@unitedrm.com.sg](mailto:enquiry@unitedrm.com.sg)

### 1.4 Emergency telephone number: +65 6764 3172

## 2. HAZARDS IDENTIFICATION

### 2.1 Classification of the substance or mixture

- Classification according to Regulation ( EC) No 1272/2008 [EU -GHS/CLP ] , labelling and packaging of substances and mixtures
- In compliance with The Dangerous Substances Directive (67/548/EEC)

### 2.2 Label elements

Pictogram

Risk Phrases:

- Causes burns ( R3 4)

Safety Phrases:

- Keep locked up and out of reach of children (S1/2)
- Avoid contact with skin and eyes (S24/25)
- In case of contact with eyes, rinse immediately with plenty of water and seek medical advice (S26)
- Wear suitable gloves and eye/face protection (S37/39)
- If swallowed, seek medical advice immediately and show this container or label (S46)

### 2.3 Other hazards

- Ingestion of significant amounts may damage digestive system and internal organs
- Vapours or aerosols may cause irritation to eyes, nose and respiratory tract. May cause damage to lungs.

## 3. COMPOSITION / INFORMATION OF INGREDIENT

Risk phrases in this section apply only to raw material, not necessarily finished product. See Hazards Identification (Section 2).

Material	Conc %	CAS Number	EC Number	R/H Phrases	Symbols
Phosphoric acid mixture	50 - 60	7644-38-8	231-633-2	R34	C
Nonylphenol Ethoxylates	3 - 10	25154-52-3	-	R41	Xi
QAC	1 - 5	68424-95-3	270-325-2	R10/20/21/22	Xi

## 4. FIRST AID MEASURES

### 4.1 Description of first aid measures

IF ON SKIN: Remove all contaminated clothing. Wash under running water for 10 minutes. Apply emollient cream. Seek medical attention if irritation persists.

- IF IN EYES:** Rinse immediately with plenty of water and continue for at least 10 to 15 minutes. Remove contact lenses, if needed and able to. Seek medical attention immediately.
- IF INGESTED:** Rinse mouth and **DO NOT** induce vomiting. Give plenty of water to drink. Do not make unconscious person vomit or drink fluids. Seek medical attention immediately.
- IF INHALED:** Facilitate fresh air to the affected person immediately. Keep warm and rest and plenty of water to drink. If condition persists, seek medical attention immediately.

#### 4.2 Most important symptoms and effects, both acute and delayed

- Causes damage to eyes, skin and mucous membranes.

---

### 5. FIRE FIGHTING MEASURES

#### 5.1 Suitable (and unsuitable) extinguishing media

- Product is non-flammable. Use fire-extinguishing material suitable for the surrounding conditions.

#### 5.2 Specific hazards arising from the chemical

- Noxious and toxic fumes will be emitted if product is involved in a fire. Take precautions to protect personnel from exposure.

#### 5.3 Special protective equipment and precautions for fire-fighters

- Wear positive pressure, self-contained breathing apparatus for fire-fighting.

---

### 6. ACCIDENTAL RELEASE MEASURES

#### 6.1 Personal precautions, protective equipment and emergency procedures

- Wear personal protective clothing as described in Section 8.3.

#### 6.2 Environmental precautions

- No special precautions are required for this product.

#### 6.3 Methods and materials for containment and cleaning up

- Clean up with chemical absorbents and dispose to designated chemical waste container. Cleanse affected area with plenty of water to prevent slip and fall. See 'Disposal Considerations' (Section 13).

---

### 7. HANDLING AND STORAGE

#### 7.1 Precautions for safe handling

- Wear personal protective clothing as described in Section 8.3
- Avoid contact with skin and eyes (S24/25)
- Eyewash/safety showers should be available

#### 7.2 Conditions for safe storing, including any incompatibilities

- Store in dry and cool area and in original container.
- Keep away from bleach and strong alkalis.

---

### 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

#### 8.1 Control parameters

- Phosphoric acid [TLV(TWA) 1mg/m<sup>3</sup>]
- Nonylphenol Ethoxylates [TLV(TWA) 10mg/m<sup>3</sup>]

#### 8.2 Appropriate engineering controls

- No special precautions are required for this product

#### 8.3 Individual protection measures

- |                         |  |
|-------------------------|--|
| Hands protection:       | Use suitable chemical protective gloves.   |
| Eyes protection:        | Wear approved chemical safety goggles.   |
| Respiratory protection: | No specific recommendation, but respiratory/face protection may be required when product is used in vapour or mist form. |
| Other protection:       | Wear appropriate clothing.   |
| Hygiene Measures:       | Make eyewash and showers accessible. Wash at the end of each work shift and before meals.                                |

## 9. PHYSICAL & CHEMICAL PROPERTIES

### 9.1 Information on basic physical and chemical properties

Appearance	Colourless liquid
Odour	Odourless
pH	1.05 – 1.15 at 1% concentration, 25°C
Melting/freezing point	<0°C at 760mm/Hg
Boiling point	>100°C at 760mm/Hg
Flash point	Not applicable
Evaporation rate	[BLANK]
Flammability	Non flammable
Vapour pressure	Not known
Vapour density	1.15
Specific gravity	1.177 ± 0.2
Solubility	Complete in water

## 10. STABILITY AND REACTIVITY

### 10.1 Chemical Stability

- This mixture is stable for storage and use under normal conditions

### 10.2 Possibility of hazardous reactions

- No hazardous reactions known if used for its intended purpose. Polymerization will not occur.

### 10.3 Conditions to avoid

- Avoid overheating.

### 10.4 Incompatible materials

- Keep away from strong bases or alkalis. Toxic gas from neutralization occurs.

### 10.5 Hazardous decomposition products

- No hazardous decomposition products known

## 11. TOXICOLOGICAL INFORMATION

### 11.1 Information on toxicological effects

- Not known

### 11.2 Inhalation

- Can cause damage to respiratory system [(hmn) LCLo : 3000ppm / 5 min orl (rat) LD<sub>50</sub> : 900 mg/kg]

### 11.3 Contact with skin

- Cause severe burns (R35)

### 11.4 Contact with eyes

- Cause severe burns (R35)

### 11.5 Ingestion

- Ingestion of significant amount may cause damage to mucous membrane

## 12. ECOLOGICAL INFORMATION

### 12.1 Eco-toxicity

- May cause acute effects in the aquatic environment [LD50 @ pH of 3 – 3.6 / LC80 (72 hours): 56 mg/L]

### 12.2 Persistence and degradability

- Product will dissociate completely in water and are inherently biodegradable

### 12.3 Bio-accumulative potential

- Bioaccumulation of the components in this product is insignificant

### 12.4 Mobility in soil

- Completely soluble in water

### 12.5 Other adverse effects

- The product will not cause environmental issues if used / disposed correctly. It presents little or no hazard to aquatic environment. Might affect pH of fluid medium if excess amount is disposed incorrectly.

## 13. DISPOSAL CONSIDERATIONS

### 13.1 Disposal of Product

- Do not discharge product into drains or environment, only dispose to authorized chemical waste collection point. Disposal should be done in compliance with local regulatory legislation.

### 13.2 Disposal of Packaging

- Recycle used containers only if facilities are available else incineration is recommended.
- Otherwise, use landfill as alternative disposable option. Be sure to comply with local authority regulation.

---

## 14. TRANSPORT INFORMATION

### 14.1 Basic information for transport

- UN Number: 1760
- UN Proper shipping name: Corrosive liquids, n.o.s.
- Transport Hazard class(es): 8
- Packing group: III
- Environmental Hazards: No

### 14.2 Special precautions for user

- Forbidden on passenger aircraft

### 14.3 Other information

<b>Air (ICAO/IATA)</b>	- UN1760 Corrosive liquids / Class 8 Packaging Group III
<b>Sea (IMDG)</b>	- UN1760 Corrosive liquids / Class 8 Packaging Group III
<b>Road (ADR)</b>	- UN1760 Corrosive liquids / Class 8 Packaging Group III
<b>DOT / CFR</b>	- UN1760 Corrosive liquids / Class 8 Packaging Group III

---

## 15. REGULATORY INFORMATION

### 15.1 Safety, health and environmental regulations specific for the product

- Regulation (EC) No 1272/2008 [EU -GHS/CLP] , labelling and packaging of substances and mixtures
- The Dangerous Substances Directive (67/548/EEC)
- Regulation (EC) No. 1907/2006

### 15.2 Safety, health and environmental regulations specific for the product

- No data available

### 15.3 Chemical Safety Assessment

- No data available

---

## 16. OTHER INFORMATION

Data from the following sources have been used to compile this document.

HSE - EH40/93: Occupational exposure limited 1993. Suppliers Health and Safety Data.

HSE - EH29/93: Occupational skin diseases: Health and Safety Precaution

HSC - Safety Data Sheets for substances and preparation dangerous for supply.

Date of issue 01.07.2021

Revision: 9
