

Product Data Sheet

STEELGARD EXPORT RUST PREVENTIVE
(Indoor Storage, inside crates, wooden boxes)

Created in 1987, Eurolube Chemicals was invented to deliver Thorough, Safer and Greener (TSG) cleaning solutions to our key clients in the marine, offshore and heavy industry. Now more than 35 years later, as a testimony to Eurolube's TSG approach, our client base has expanded, as has our product range. Today, Eurolube's offerings contain more than 50 core products targeted at addressing a wide variety of sector from agriculture, food manufacturing to niche industry needs.

Formula 50

Protect your Metal Assets

Suitable for long-term internal storage, and export of metal parts, machinery and metal spare parts.

Easy To Apply & Quick Drying, Non-Flammable, Non-Toxic

Formula 50 Steelgard Export Rust Preventive is a thin and transparent film that provides a much higher level of protection than the old-fashioned methods involving thick heavy coatings which can be difficult, messy and time-consuming to apply or to remove

Direction of Use

In many instances, machinery or components can be put into service without the need to remove Formula 50.

If removal is required, it is easily achieved by simply wiping or using solvents such as white spirit and paraffin.

Methodology

High Coverage – each litre of Formula 50 Steelgard Export will cover about 45m² of surface.

Low cost – exceeds the coverage of other products by as much as three or four times.

Results

Saves Time & Labour – quick and easy to apply which induces cost saving on man hours required. Timed experiments have shown that the entire cost of Formula 50 can be defrayed through the savings in labour.

Available Packing
4 X 5 Liters Carboy
25 Liters Carboy
200 Liters Drum
1000 Liters IBC

HS Code : 34011990

Application

Physical Properties

Appearance	White Emulsion
Odour	Citrus
pH	5 ± 1 at 100%
Specific Gravity	0.83 ± 0.02
Flash Point	Min 90°C
Flammability	Combustible
